You need company and prefer to associate with cultured, refined and creative people. You have an aesthetic sense and an appreciation of the arts, coupled with a preference for harmonious and tastefully arranged environments.

Ascendant Opposition Mercury (3°33' S)

You have a keen mind and quite possibly an above average intelligence. You are sharp-witted and alert to what's happening around you; so much so that you rarely miss a trick. A clear communicator, you express yourself lucidly and frankly. Also, you are a good conversationalist because you are curious about what interests others. You are animated and expressive in company and probably talk with your hands. The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

The Qualities

They are not easily influenced by others and can be quite firm or stubborn once their minds are made up about something. They tend to hold onto things and are reluctant to change. They are staunch, but they can also be inflexible and at risk from becoming set in their ways.

36% Mutable
